

## Cheek Pieces

Last Updated Wednesday, 23 December 2009 18:38

---

Our standard cheekpiece is the 46 Aluminum which is made of high quality strong Aluminum.

Most all bits, with a few exceptions, are available in the Cheek Pieces that are shown below. There is a nominal extra charge for any cheekpiece other than the standard 46 model.

We will custom make up any bit / cheekpiece combination that you need. Special orders will take a few days extra to manufacture.

Feel free to [e-mail](#) us for more details.
